

## THE WORLD OVER

OTTAWA SESSION REOPENS, 20TH

DOUGLAS Says NO CRITICISM YET

OTTAWA—As Prime Minister R.H. Bennett nears Canadian shores returning from the jubilee celebrations in London, preparations for the re-assembling of parliament May 20th are moving forward at full speed in numerous government offices.

Mr. Bennett will arrive about Saturday and when the members of parliament return to their tasks the following Monday a number of bills, based on the report of the price spread commission, will be ready for introduction in the House of Commons.

Prospects of an early conclusion of a trade treaty with the United States are improving. It is understood.

EDMONTON—Major C. H. Douglas, organizer and chief exponent of the social credit system that bears his name, and William Aberhart, of Calgary, leader of the provincial political social credit movement, are both working toward the same ultimate objective, declared the former, in an interview on Monday.

Major Douglas has been retained as chief reconstruction advisor to the Alberta government and arrived in Edmonton over the week end.

Seated in his apartment at the Macdonald hotel Major Douglas, in discussing the Aberhart system of social credit, under which each and every adult would receive \$25 a month based on dividend, declared that: "I have purposely avoided going into details of the Aberhart scheme as I realize he is creating a psychology, and while we are both seeking the same ultimate end, it is not fair to criticize yet, although I do not agree with all the details of Mr. Aberhart's scheme."

Abund grasses are now plentiful on the stretch of road between the Central Service Station on Highway No. 5, and Highway No. 22, which is to run through Carleton, and it will not be long before this grading contract is completed.

## I.O.D.E. Concert on Monday Very Well Presented

The concert put on by members of the Lady Roberts chapter, I.O.D.E. in the hall on Monday night of this week drew a good crowd and a real interesting entertainment was presented. The entertainment opened with the singing of "O Canada" and the various numbers were announced by Hugh MacDonald.

The first number on the program was a one-act play entitled "Circle on Deck". Players taking part in this play were Mrs. C. Priesen, Miss Molly Matton, Mabel Ramsay and Ella Haldsted.

The second part of the program consisted of musical numbers which were sung by the entire cast, back stage, while the theme was presented in costume and song by the various members taking part. This part of the program opened with scenery in the form of a book, representing three distinct periods, 1900, 1914 and 1920, and appropriate songs represented each era.

1900 opened with "Waltz Me Around Again" followed by "Circle on Deck" by Mrs. J. Smith, Mrs. Schielke, Mrs. A. Reid, Jr. and Misses Mabel Ramsay, Molly Matton, and Myrtle Skerry. The next song was "Two Little Girls in Blue" acted and sung by Misses Grace Cameron and Norma Williamson. "The Bicycle Built for Two" was presented by Misses Leona Gervais and Winnie Poxon. This was followed by "Where Did You Get That Hat" by Leona Gervais, and the period 1900 was concluded with "Put On Your Old Grey Bonnet" by Miss Myrtle Skerry and Mrs. H. C. Wilson.

Between Parts one and two Mrs. Daphne Priesen, dressed as a soldier,

and riding a horse, represented Paul Revere, calling the people to war.

The second page of the book, turned by Miss Marian Torrance, represented the period of 1914. The following songs were sung by the entire cast: "Tippity-Too," "Jolly Gray," "Where Do We Go From Here," "Smiles," "There's a Long Long Trail," "Smiles."

The above songs were acted as scenes, while other members represented soldiers, while others represented nurses. Then followed "I Don't Want to Get Well" by Leo Trepanier and Miss Grace Cameron. To bring this part of the program to an end, Miss Mabel Ramsay and Miss Molly Matton portrayed the song "Katy."

Between the second and third parts of the program Mrs. J. Smith and Mrs. Myrtle Skerry presented a sailor act.

The next page of the book was acted to represent 1920 and opened with "How You Gonna Keep 'em Down on the Farm" by Mrs. Wilson, Mrs. Priesen, Mrs. Schielke and the Misses Ella Haldsted, Myrtle Skerry and Mrs. A. Reid. The next song presentation was "Mabel's Bathing Suit" by Miss Winnie Poxon, and this was followed by a solo "Alice Blue Gown" by Miss Grace Cameron, "Margarite" and "Leave Me With a Smile" were the next two songs, portrayed by Misses Ella Haldsted and Mabel Ramsay. "Old Fashioned Sweetheart" was sung back stage by the cast, while Mrs. Wilson was seated on the stage with her knitting. "Singing in the Rain" came next when Mrs. A. Reid, Misses Ella Haldsted, Grace Cameron, Myrtle Skerry, Mabel Ramsay and Mrs. Schielke came on the stage in rain coats. "Widdling of the Painted Doll" was the last item on this part of the program and was sung back stage, while Irene Wilson acted the part of the bride, Gordon Hay, the groom; Marion Torrance, the minister; Betty Wilson, Nora Green and Joanne Milligan, bridesmaids; Margaret McGregor, Little Red Riding Hood; and David Priesen, as Jumping Jack.

Between the third and fourth parts of the program three songs, one English, one Irish, and one Scotch, were sung. The first "He never came Back" by Mrs. C. Olliphant; the second "When Irish Eyes are Smiling" by Mrs. A. Reid, and the last "Wee Wee Dore" by Miss Grace Cameron.

## FOUR CANDIDATES IN DISBURRY

THREE HILLS.—A. B. Claypool, M. L. A., was in town last weekend, and in conversation with several of the business men announced his intention of running again in the coming election. The date of the U. S. A. B. Claypool constituency nominating convention has not been decided.

With this announcement of Mr. Claypool's, there will be at least four candidates running in this provincial constituency—A. B. Claypool of Craisedale, who was chosen as Conservative candidate at convention last fall; A. Blenheim, of Three Hills, Liberal; a social credit candidate, the choice to be between E. P. Kirk, H. P. Foster, and R. P. Foster, all of Three Hills, and Mr. Hamill of Carleton Place; and Mr. A. B. Claypool—Calgary-Albertan.

## JURY FINDS W. J. HENDERSON KILLS HIMSELF

CLIMAXING a two day hearing of evidence into the death of William J. Henderson, who came to his death in the Bank of Montreal building early Sunday morning, December 24th, 1924, a coroner's jury Thursday last brought in a verdict that deceased came to his death by "his own hand" adding that it was a case of suicide, and also that the R.C.M.P. had made a thorough investigation at the time and had done their duty satisfactorily.

Aside from the fact that the parents endeavored to clear their son's name, the reopening of the hearing of evidence was due to the fact that Henderson Junior was carrying a \$7,500 double indemnity insurance policy and that should the shooting have been accidental the policy would have paid double. The father was not satisfied that the son had committed suicide and after seventeen months had the case reopened in the hope of proving the death accidental.

The second inquest was held in the Farmers' Exchange hall, Carleton, Wednesday and Thursday of last week. Forty-five witnesses were summoned, and of these 28 were called. In nearly every case where direct evidence was submitted it appeared that Henderson had killed himself to take his own life.

Witnesses called in order were: E. Sellens, D. M. Duggan, J. Radcliffe, R. McFarlane, Dr. Fowler, M. Mall, Frank Jordan, G. Simpson, W. Charlton, W. Sellens, W. Carleton, W. Edwards, G. P. McGregor, P. Edwards, Bruce Reid, Fred Wesley, W. G. Winters, Mr. Wilkinson, Mr. Wilson, Mr. Donahue, S. P. Torrance, H. Wilson, V. Hawkins, Miss K. Watkins, Miss Molly Matton, Mrs. G. Matton, Miss Rose Olliphant, Mrs. Harvey, Mabel Poxon, A. P. McKibbin, J. M. Macdonald, Bruce Ramsay, Miss Rose Schwartzberger, Const. J. Stevens, H. Caldwell, Mr. Bruce, Dr. Orr.

The jury, composed of Messrs. J. Atkinson (foreman), W.B. Elliott, Jas. Gordon, Harry Evans, E. H. McNeil, and H. Nesbitt, heard all the evidence and after deliberating only a short time brought in the verdict of suicide.

The fourth part of the program opened with the lights turned off and the stage illuminated by a spot light. Three songs were sung back stage by the cast, entitled "Shine On Harvest Moon," "Putting In the Park," and "Sweethearts Forever." These were portrayed on the stage by Mrs. Daphne Priesen and Miss Myrtle Skerry. This was followed by "Little Dutch Girl," a scene from Holland, by Misses Mabel Ramsay and Little Skerry, and Donnie Hay. To end this part of the program the players paraded about stage while they sang "Mr. and Mrs. All the songs in the second, third and fourth parts of the program were accompanied at the piano by Miss Kathleen Watkins.

The next item on the program was a one-act play "In Doubt About Duty" by Mrs. J. Smith, took the part of the mother, Bruce Ramsay; the part of the father, Miss Grace Cameron; the daughter, J. Spence, the son, Miss Kathleen Watkins, the son's girl friend, and Cyril Poxon, the daughter's boy friend.

"Soldiers of the King" was presented in the form of a drill by the entire cast of girls and the program concluded with the singing of "God Save the King."

## Jubilee Day Address Given By Rev. Wm. McNichol

"Who knows whether thou art come to the kingdom for such a time as this?" Esther 4: 11.

"If I forget thee O Jerusalem let my right hand forget her cunning. If I do not remember thee let my tongue cleave to the roof of my mouth." Psalm 137: 5, 6.

"Tomorrow our country and our nation will celebrate the 25th anniversary of the accession to the throne of King George the Fifth. There will be colorful pageantry, and a national display of money and power, but greater than all, and more all-sufficient by far, will be the sense of local devotion that will swell up in every loyal breast toward our King. George the Fifth is King of England, not of choice but by Divine appointment. A sailor who did not want to be King, but when in the providence of God was compelled to be. Today he rules over the most magnificent empire the world has ever known. As he sits on the throne of the Empire, he holds the destinies of all King Solomon's domains. King of nation and company of nations that include the whole of the world, it is no doubt that then let me ask you why does he rule over all that great territory presided by God to atone for his sin? Why does his dominion extend from sea to sea, and from the river into the ends of the earth? Why does this territory and the peoples that dwell therein have all the sea marks foretold by the Hebrew prophets that should designate the people of Israel at the end of this age, and that no other people or territory have them. Why do they hold all the gates of their enemies? They are a great and daring people. They live on the sea coasts and islands north of Palestine. A place prepared by God for them where they would be safe. A people who keep the Sabbath, and are also a great missionary people. Also a people who have proved themselves to be a servant nation. You cannot find another people anywhere. In any age, possessing these signs and prophetic symbols of an unknown people. Yes."

The table showing the standing of the teams entered has been omitted from this issue owing to lack of space. Teams entered were: Carbon "A", Carbon "B", Drumheller "A", Drumheller "B", Haddon, and Arma. In the Junior Division, in the Junior Men's Division three teams entered were: Carbon "A", Three Hills, Carbon "B", Arma. In the Ladies Division three teams entered were: Drumheller "A", Carbon, Three Hills, Drumheller "B", and Arma.

King George the Fifth is the King of Israel, ruled up by God, and established upon the throne of David.

It would be difficult to find a kinder, more sure and less uncertain power. More real in the sense that he is kind without effort, as well as he is forbearing; and also in his instinctive understanding of what the empires look for in its King. He is not by nature spectacular. This does not mean he is more surprised than he at the least personal feeling that his people have for him. He can understand why such a feeling should be cherished for him. (Continued on back page)

### Confidence

Confidence is the bedrock on which human society rests. The entire world in all its varied activities is motivated by confidence. Destroy confidence and our civilization would disappear. It has been long accepted as a truism that there is in life but one absolute certainty, which is death. And, says one writer, all other activities, to a large extent, are dependent upon confidence for their being.

There is no word in our language that is more powerful in its full meaning, one that carries with it no practical an agency to accomplish our desires or to transmute our hopes into realities than that of confidence. It has been said that it is a plant of growth. Yet it is one that can be nurtured by individuals and groups of individuals and brought to full fruition with little effort. It is akin to faith in that faith is a particular propensity to be made an actuality by confidence. It is in a measure a question of application. Sometimes it is an outgrowth of reason, sometimes instinct, but however acquired it is, as stated in our opening sentence, the bedrock on which human society rests.

A home is established on confidence, the confidence a man and a woman have in each other which begets respect and love, confidence which children have in their parents, confidence which parents seek of their children and in turn which they repose in their offspring. Lacking confidence, a home would be impossible.

A successful business can only be built up and maintained where there is confidence, the confidence which one partner reposes in another, which the shareholders have in their managing executive, which an employer extends to his employees, and which employees have for their employers, and finally which the business man has in his customers and his customers have in him. Lacking such confidence, a business will inevitably end in bankruptcy.

So, too, is the life of the community founded on confidence. First there must be confidence that there is a future for the community or there will be no community because people would not remain to constitute one; people who constitute the community group must have confidence in the goodwill, ability and enterprise of their associates, otherwise confidence in the community itself would be lacking. And what is true of the community is true of the nation.

It is not only essential that the citizens of a community or nation possess confidence in themselves and in each other, but it is vitally necessary that other communities or nations reposes confidence in them if they are to achieve the greatest success and rise to a proud place in the world. When confidence between peoples and nations is lost, the world is headed for trouble.

Furthermore, when a community or nation assumes an attitude or adopts a course of action which results in a withdrawal of confidence from it, such community or nation is bound to be the sufferer. Once a man breaks faith with another he destroys what, after all, is his greatest asset, the confidence which his fellow men reposes in him. It may have taken a long time to win the confidence of others, but by any act it can be quickly destroyed and forever lost. And if a community built up as communities are by the confidence that people have given to them, proceeds to evade its responsibilities and repudiate its obligations, it thereby destroys its most valuable community asset.

A dollar bill is only valuable because of the confidence which the public has in the Government or bank issuing the bill, lacking such confidence the piece of paper would be utterly valueless. If a pupil lacks confidence in his teacher, the teaching will be largely in vain. The sick patient's confidence in the doctor is the battle to a successful recovery. Lacking confidence in the safety of the track, of bridges to be crossed, of the dispatcher at the telegraph key, of the trained engineer in the locomotive cab, few people could be induced to undertake a railway journey.

Let the reader consider what his or her own position in life would be if they lost all confidence in their fellow citizens, in the institutions of their nation, in everything animate and inanimate which surrounds them. They would become fit inmates for a madhouse. Without confidence mankind simply could not continue to exist.

Notwithstanding this great truth, the fact remains that throughout the world to-day organized efforts are being put forth to destroy confidence in practically all things. Men and women are asked to place no confidence in the existence of God, to abandon their formerly held religious beliefs, to reject forms of government, which it has taken centuries to develop, to surrender confidence in themselves, their convictions, abilities, initiative and energies, in a word, their individual liberties, and because they no longer have confidence in themselves, to become mere cogs in an economic and political machine operated by forces over which they will have surrendered all control.

Loss confidence in yourself and you destroy yourself, because with loss of confidence there is loss of self-reliance, loss of self-control, loss of ambition, loss of initiative and the power to do.

#### A Whale Of A Shark

The largest shark ever caught in South African waters was trapped in a fisherman's net at Hout Bay, near Cape Town. It was 27 feet 6 inches long, 12 feet in girth, and weighed five tons. It fought madly for freedom for two hours before it was finally hauled into shallow water. Even then 14 bullets were needed to kill it.

#### Moving Church Uphill

To make way for the replanning of the city, the ancient church, Belvaros Temple, in Budapest, Hungary, is to be moved 16 yards up a hill. It will be eight yards higher in its new position. Special machinery for the operation has been invented by Lejzer Fridrich, a well-known engineer. The moving will cost \$250,000.

#### Figures Are Interesting

##### Statistics Show Important Place Occupied By Canada's Railways

The place which Canada's railways occupy in the Dominion's affairs is strikingly shown in some statistics recently released. Last year 66,626,000 tons of freight were transported by Canadian railways and 17,052,000 passengers travelled on their trains. The total payroll of Canada's railways for the year amounted to \$141,075,000 paid to an average of 110,000 employees. The railways are one of the largest consumers of Canada's coal output. Some figures in respect covering Canadian National lines show that out of every dollar of the \$151,038,075.56 spent last year in operating the railway, approximately 30 cents went for fuel. The fuel bill for locomotives amounted to \$14,705,082.23 for the year; the water bill amounted to \$883,700.04. Approximately 60 cents out of every dollar of expenses went for labor. Information as to commodities handled over Canadian National lines throughout the year gives a slight insight on the extent to which Canada's mining industry has grown. Products of the mines constituted the largest portion of the total revenue tonnage, 12,092,548 or 32.7 per cent. Agricultural products account for 23.1 per cent, forest products 12.2 per cent, animal products 2.7 per cent, miscellaneous 29.8 per cent.

### In Bed With Neuritis Every Winter

#### Until Kruschen Brought Relief

"For three years," writes a woman, "I have been sick in bed about three months every winter. Last winter I started taking Kruschen Salts, and got relief from the first dose. This winter I have not been in bed at all."

Neuritis is a result of impurities in the blood. And it is impure blood, circulating all over the system and setting up inflammation in the tissues, that is the cause of this trouble.

Kruschen Salts can be safely trusted to set the matter right. Because Kruschen contains just what Nature needs to purify your blood, and to break it up into a healthy, normal condition.

#### Necessity For Canada

##### Control Of Wheat Supply Needed States British Economist

Regulation and control of wheat supply is a necessity for Canada, and other dominions exporting wheat to Great Britain as Britain's population is no longer increasing and her wheat demand is decreasing, says a British economist, noted British economist, stated at Montreal.

Chairman of the London, Midland and Southern Railway and a director of the Bank of England, Sir Josiah was in Montreal while en route with Lady Stamp from Quebec to New York on a combined business and pleasure trip to the United States.

Sir Josiah, who headed a royal commission on the Canadian wheat situation, said he hoped any increased business to the Canadian wheat farmer as a result of the United States' dust storms would not start him increasing acreage and crop production under the impression the benefits would be permanent.

#### Rapid Transport

##### London Aviator Planning Week-End Trip To Canada

Flying what is designed to be the speediest all-weather plane in the world, Capt. T. Campbell Blair is planning a "weekend" trip to Canada this summer, it was learned in London.

The flight will be the second of four proposed "weekend" flights, the others being to Copenhagen, the Orient, and an unknown destination respectively.

The February movement of bacon from Canada to Great Britain, viz., 14,765,000 pounds, was almost double the volume for February, 1935. The total value of bacon exported during January and February, 1935 was \$8,370,600 pounds, an increase of 9-82,600 pounds over the shipments in January and February, 1934.

Popcorn seed imported into Canada from July 1, 1934 to March 1, 1935, amounted to two pounds only. During the past winter local growers at Magrath, Alberta, marketed over 1,000 pounds of shelled popcorn.

Mount Ararat, on which Noah landed the Ark after the great flood, is now more than three miles above sea level. 2097

### Took Part in Convention

Blind, Crippled Child Astonishes Delegates With Her Skill  
Kindliness which all good school teachers feel towards children came readily for Lucille Lemp, a little blind and crippled girl from Tavistock, Ontario, who took an active part in the public school department's session of the Ontario Education Association's convention held recently in Toronto.

Lucille was brought by her parents, Mr. and Mrs. John K. Lemp, especially for the occasion. The tiny pink rock she evoked the kindliest of attention as she was carried onto the stage by her proud father, but when she began to give her number, admiration and sympathy went together in the hearts and minds of delegates who proudly saw in the child's artistic and skillful demonstration an example of what a home instruction unit under the auxiliary classes of the Ontario Department of Education had been doing for physically handicapped children.

Lucille played her harp for an audience which applauded her when she was through. With excellent expression in her pleasant voice she recited a poem which she had written. While the delegates, with rapid attention, watched her cheer, earnest face, she wrote a business letter on a typewriter with a Braille keyboard. Using a relief map of the British Isles she gave her audience a lesson in geography.

### QUIVERING NERVES

#### The Mauretania Retires

##### Launched in 1906, This Vessel Covered 1,500,000 Miles During Its Years Of Service

The Cunard liner Mauretania, which has just been retired, was planned to be the fastest ship in the world, and not only won this distinction but kept it for 32 years. The Mauretania was built at the shipyard of Swan, Hunter and Wigman Richardson, at Wallsend, near Newcastle-on-Tyne, England, and was the first ship to have quadruple propellers.

The hull was launched on September 26, 1906, the Dowager Duchess of Roxburgh performing the launching ceremony. The ship's final trials took place on November 3, 1907, and she started on her first voyage to New York on November 16, 1907, making the crossing in five days, five hours and 10 minutes, and thus breaking all existing records at that time.

As late as July 1933, the Mauretania, on her way from Halifax to New York, covered 112 miles at an average of 32 knots, or 36.84 land miles per hour. This record was made before Caryfort Reef Light-house and Jupiter Inlet Lighthouse.

The Mauretania had steamed fully 1,500,000 miles, including more than 300 voyages across the Atlantic, scores of cruises, many of them to the West Indies and South America, and scouting and troop-carrying during the war. Her mileage would reach around the world sixty times. During her career she carried approximately 250,000 passengers. During the war she transported over 10,000 soldiers.

The Mauretania was named for a former Roman province in North Africa.

#### Grading Of Print Butter

Will Shortly Be In Effect All Through West

Grading of print butter will soon be an accomplished fact in Western Canada. Hon. D. McKenzie, Manitoba Minister of Agriculture, has announced that the grading of creamery print butter sold in that province will go into effect June 1, enabling legislation having been passed recently by the province. Similar regulations are understood to have gone into effect in British Columbia and Alberta on May 1, and in Saskatchewan on June 1.

At the present time, under the Federal Dairy Industry Act, regulations provide for the grading and sale of all butter, whether in point or in pound prints, as only first, second, third or no grade, whereas formerly only such butter as was going on export or into storage was so graded. Under additions to the act last year provision was made for compulsory print grading, and the eastern provinces have been the first to pass enabling legislation.

#### The Most Precious Thing

If time be of all things most precious, wasting time must be the greatest prodigality, since lost time is never found again; and what we call time enough always proves little enough. Let us then be up and doing, and doing to a purpose; so by diligence shall we do more with less perplexity.—Franklin.

#### Find Petrified Forest

Discovery of a petrified forest dating from a prehistoric age on the slopes of the Adahar mountains in Tullis, Russia, has been announced Professor Vinogradov of the Tiflis forestry institute, who made the discovery, said he found fossils of many different species of trees, some of gigantic proportions.

Chlorophyll, the green coloring matter in plant leaves, apparently is the only means by which solar energy is made available to the plant.

H. C. Wilson left for Winnipeg last Thursday.

P. Edwards returned from Calgary Saturday.

—For Sale—Registered Yorkshire Bull with papers. Aged five years; color, white and brown—Apply to D. E. Charlebois, Box 79, Carbon, Alta.

Hugh J. Macdonald arrived in Carbon on Sunday after spending the past term attending the University of Alberta.

Rain over the week end again delayed seeding in this district for a few days but farmers are on the land again. Most of the wheat seeding is completed around Carbon and now that we have plenty of moisture for a while, warm sun, and wind, should be bringing on the germination of seed. It appears that these warm are here, but with such uncertain weather conditions this spring it is almost impossible to predict weather for one day or the next.

## TEVE'S TO CONTEST KOOTENAY

PETERBORO—Hon. H. H. Stevens, former minister of trade and commerce, who addressed a meeting here Saturday night stated definitely to friends that he would not be successful during recent weeks, he is a candidate in Peterboro West in the next federal election. He would, he said, contest Western, British Columbia, thinking he now represents in the House of Commons.

## PATRIOTIC ADDRESS GIVEN BY REV. MUNICHOFF SUNDAY, MAY 5

(Continued from front page)  
illustrious grandfather, and for his peace-loving father, but he can use no reason why it should be cherished toward himself. Yet for King have been loved more ardently, or treated better than he. This feeling was demonstrated very clearly to the world during his very serious illness in 1935. The world was surprised to find that to his people the King was a man who held his people's loyalty and love. Our King has returned through an

C. Dunmore was a Friday visitor to Calgary.

Harold Edwards of Drumheller spent Arbor Day at his home here.

—Attention Parents! Mrs. Cassidy, dancing teacher, will open a class in dancing in the I.O.O.F. Club Rooms commencing Saturday, May 18th. Anyone wishing information Phone 15. In

Mr. and Mrs. W. Poxon spent Friday and Saturday in Calgary.

century quarter of a century. Few things have remained over time more difficult, strenuous and filled with care. It is everything for our country today that at the head stands a king who shows in his family life ideals which come within the range of high and low rich and poor. There is a noble fortitude to all that he has in his life. He regularly goes to the House of God on the Sabbath day to worship, and he daily reads the Scriptures in his own home. Few of us realize what hard work and intelligence he puts into his job.

His never tiring with his ministers. He never tamers with the constitution. Yet no one guards the liberties and rights of his people with more jealous care than he. He lives to serve. His great abilities and his wisdom are used to that end. He would keep the peace in his great family, and safeguard them from all their foes. He has been extremely fortunate in the choice of a Consort. Queen Mary has been all that a great Queen ought to be. She has proved

herself to be a very great and distinguished woman, with the heart of a true mother, and the intelligence of a man. She too has served the Empire well. She has stood staunchly by her husband at all times, and with all circumstances, and in serving him she has served the empire too. You can but dimly realize the debt we owe our King and Queen. We have to thank God for placing them over us, and cry with one united breath, "God save our King!"  
(Continued Next Week)

## NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of Richard Day, late of Carbon, Alberta, Farmer, Deceased.

NOTICE is hereby given that all persons having claims on the estate of the said Richard Day, who died on the 12th of November, 1934, are required to file with the undersigned by the 1st of July, 1935, a full statement, duly verified, of their claims and of any securities held by them and that after that date the Administrator of his estate will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or brought to his knowledge.

DATED this 14th day of May 1935.  
JOSEPH J. GIBBESAN...
